

Please do not change the rules for the Wisconsin Do Not Call List!
The citizens of this state want a strong Do Not Call program - We
value our peace and quiet in our homes especially in the evening
when we're spending time with our family. I NEVER buy anything or
contribute to anything when I receive a call. So all these
telemarketers are wasting my time and theirs when they call!
Republicans and Conservatives say they value states' rights - leave
our state law alone!
